# TeamViewer

The Global Workspace

Built by TeamViewer

Learn why Startup's, SMBs and Big Businesses alike are choosing **TeamViewer** to build enterprise class **Global Workspaces** instead of VPNs to save money and achieve greater business reach.

The waiting for a VPN alternative is over! Access, Support, Control and Collaboration are no longer complex and expensive.
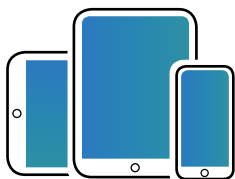

Simply connect from anywhere and we do the rest!

Work is not defined by a place but by how well you are connected!

24/7/365 Access

Everyday millions of people are leveraging TeamViewers' Software and Global Access Network connecting securely to billions of devices, machines, Apps, data-pools and IT Resources to do their jobs. Regardless of their location we guarantee constant access to the resources they need to maximize the use of their time and quality of service.

Simple and Versatile

Whether its an international IT Support Team keeping your business running or a globally distributed Sales Team collaborating to close deals, they share the need for simple and versatile access to any device anywhere, at anytime without limits. These ever increasing demands stemming from our -more, faster, now-world have pushed VPNs to the limits where they simply can't keep up with the cost and pace of change.

Anywhere, Instantly

In response companies are turning to TeamViewer to build efficient Global Workspaces that give them the flexibility and unlimited geographical reach they need so their businesses and employees can succeed from anywhere. Instant secure access at low cost is our business promise!

Instant Connectivity and Scalability

Go beyond
the limits of a VPN

Enterprise-class Security and Scalability for all

With a TeamViewer Global Workspace there are no connectivity limits or infrastructure costs. The burden of ownership is carried by us. You simply connect and we do the rest.

- TeamViewer simplicity trumps VPN complexity: no more hardware infrastructure, maintenance, architecting, planning, testing, upgrading, racking and stacking or waiting
- No costly Public Network and Security expertise required to manage VPN complexity
- No VPN scalability issues or multivendor solution incompatibility problems
- No VPN user contention issues compromising bandwidth

Immediate Payback and ROI

From the moment you begin deploying TeamViewer you can start counting the savings that can now be used to fund other important business growth projects.

- Eliminate partially or fully VPN infrastructure CAPEX & OPEX
- Slash travel ticket purchases, hotel costs and expenses
- Reduce travel downtime and increase productivity
- Reduce office energy costs and floor space requirements
- Cut office insurance costs
- Reduce global training costs
- TeamViewer guarantees quality of service all the way to the most remote end-point

Better Employee Engagement

Companies are continually looking for innovative ways to improve employee engagement. A TeamViewer Global Workspace provides the necessary flexibility to work from anywhere.

- Higher job satisfaction due to increased productivity and subsequent recognition
- Lower employee attrition rates as a result of greater Work-Life Balance
- Stronger company image because of better employee retention
